## **Website Development Agreement**

# **Title: Movie Grid website with better look and extra features**

We have a deal for the website creation of Movie Grid with a better look and extra features within the budget of 400\$. With the advance of half payment of 200\$ currently and the other 200\$ after completing the website and your satisfaction. With a deadline of 3-4 weeks.

Requirements:

- Users can log into the system after successful registration.
- After the successful login, the user can play the game of guessing the movie related to the actor name, release date and genre.
- User has a timer and 9 possible guesses. After the guesses become 0 the game is over and the score of the user is shown to him.
- User's profile maintains the record of their previous game histories.

### **Note**

**If any other extra paid resource is required to develop the quality website, you'll buy me them like APIs, Servers, domain, or any other thing.**

**If any extra changes come from your side after the agreement, then you must pay for those extra changes (An increment in the scope of the website will also cause an increment in the budget).**

**Development Language: NEXT.js**

**Development too: Visual Studio Code**
